

Daniel L. Cork is a program officer for the Committee on National Statistics, currently serving as co-study director of the Panel on Research on Future Census Methods and assisting the Panel to Review the 2000 Census. He also directed the Workshop on Survey Automation in 2002. His research interests include quantitative criminology (particularly space–time dynamics in homicide), Bayesian statistics, and statistics in sports. He holds a B.S. degree in statistics from George Washington University and an M.S. in statistics and a joint Ph.D. in statistics and public policy from Carnegie Mellon University.
