

**Christopher Mackie** is a study director with the Committee on National Statistics specializing in economic measurement and statistics. He is currently serving as study director for an expert panel charged with improving health and medical care national accounting, and another assessing measures of higher education productivity. He has served as study director for a number of other projects, including those that produced the reports, *At What Price? Conceptualizing and Measuring Cost-of-Living and Price Indexes*; *Beyond the Market: Designing Nonmarket Accounts for the United States*; and, *Understanding Business Dynamics: an Integrated Data System for America's Future*. He has also led a number of CNSTAT initiatives related to data access, sharing and confidentiality issues. Prior to joining CNSTAT, he was a senior economist with SAG Corporation, where he conducted a variety of econometric studies in the areas of labor and personnel economics, primarily for federal agencies. He has a Ph.D. in economics from the University of North Carolina, and has held teaching positions at the University of North Carolina, North Carolina State University, and Tulane University.
